We would like to thank you and the entire UC San Diego CADC for the excellent evaluation you have done for my mother with the comprehensive assessment and recommendations.

Whenever we have had to need to use the evaluation, we have received very positive comments regarding its thoroughness and credibility. In addition, your recommendations have helped us to move forward with better care for her with the Alzheimer's disease.

You have been a valuable resource and I can truly say that our lives have been better because your service.
